

Redmine - Defect #8239

notes field is not propagated during issue copy

2011-04-27 21:23 - Janusz Harkot

Status:	Closed	Start date:	2011-04-27
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	1.2.0	Affected version:	1.1.2
Resolution:	Fixed		
Description scenario (vanilla installation of redmine): - open existing issue - click copy - add notes - click copy button notes are not visible, they are lost			
Related issues: Related to Redmine - Defect #6901: Copy/Move an issue does not give any histo... <div>Closed2010-11-15</div>

Revision 5602 - 2011-04-29 15:27 - Jean-Philippe Lang

Fixed: notes are lost when copying issue(s) (#6901, #8239).

History

#1 - 2011-04-28 13:47 - Etienne Massip

- Target version set to Candidate for next minor release

Confirmed with demo site, I'll try to investigate further.

#2 - 2011-04-29 15:41 - Etienne Massip

Had a quick look yesterday evening, Issue#new.copy_from does not copy current journal.

Maybe that call to Issue#init_journal in IssueMovesController should be moved to model after call to #copy_from and only for a move action (do we really need a journal entry in a copy context if no notes are filled in) ?

#3 - 2011-04-29 19:36 - Etienne Massip

This change prevents double #save :

#4 - 2011-05-03 20:03 - johann sebatian

- Assignee set to johann sebatian

#5 - 2011-05-23 18:14 - Etienne Massip

- Assignee deleted (johann sebatian)

- Target version changed from Candidate for next minor release to 1.2.0

#6 - 2011-05-23 19:06 - Etienne Massip

- File issue_copy.patch added

Less intrusive based on trunk ?

#7 - 2011-05-29 09:23 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Fixed

This was fixed in [r5602](#). Anything wrong with it?
