I think it was designed rather a bit different, looking like this:

What do you think?

LGTM.

I agree, but only as long as it does not come with unintended side-effects in other parts of the UI.

I have looked tabs in pages generated from the following templates and didn't find problems.

- app/views/custom_fields/index.html.erb
- app/views/groups/edit.html.erb
- app/views/issues/show.html.erb
- app/views/projects/settings.html.erb
- app/views/repositories/_changeset.html.erb
- app/views/settings/edit.html.erb
- app/views/timelog/_date_range.html.erb
- app/views/users/edit.html.erb
- app/views/workflows/edit.html.erb
- app/views/workflows/permissions.html.erb
