<b>Target version:</b>	<b>Affected version:</b> 1.1.1
<b>Resolution:</b> Cant reproduce	

**Description**

It will ask for a plug-in although it's supposed to be have SVG support built in. Looking at the graph URL in the browser in a separated window/tab works flawlessly, must be a problem with the embed TAG or content type...

- Category set to SCM

Works fine for me with Redmine site and FF 3.6.15.

**#3 - 2014-11-03 06:45 - Go MAEDA**

- Status changed from New to Closed

- Resolution set to Cant reproduce

I can see the [graph](#) with Firefox 33.0.2 and Firefox 3.6 is too old.

I think this issue can be closed.
