<b>Description</b>			
In Redmine Admin -> Settings, there is a 'Welcome text' field, where I can enter test for the main page. While I can use <code>&lt;pre&gt;&lt;code class="ruby"&gt;...&lt;/code&gt;&lt;/pre&gt;</code> in the welcome text and the syntax highlighter actually works (it parses the content), the stylesheet scm.css isn't included for the welcome page, and thus syntax isn't actually "highlighted".
