**Description**

This issue is about Redmine.org the website. And not (directly) about Redmine the software. I acknowledge this issue queue is not for support issues for Redmine.org website, but I can not find a more appropriate place to file this issue.

Steps to reproduce:

1. Log in to Redmine.org as a regular user (no additional privileges)
2. Go to <http://www.redmine.org/my/account>
3. (optional) Change anything
4. Click save
  - **Expected behaviour:** A message stating changes were saved
  - **Actual behaviour:** Redmine.org returns an error message "\_Login has already been taken\_"

  

1. Reload the page
  - **Expected behaviour:** Changes have been saved
  - **Actual behaviour:** Changes were not saved

I could not find any issues in the issue queue for Redmine the software that appear to relate to this.

#### History

##### #1 - 2011-11-20 18:47 - Jean-Philippe Lang

- Category changed from Accounts / authentication to Website (redmine.org)
- Status changed from New to Closed
- Resolution set to Fixed

This should be fixed now.
