<b>Description</b>			
<p>Hi,</p> <p>We have a problem with the pdf export for some custom queries.</p> <p>The column width is not optimal for the "N° Prime" and "Fournisseur" fields.</p> <p>For some fields, the width are too big for the information present in to it and too small for others.</p> <p>How to change the width of the column to automatically adapt to the content in to it?</p> <p>Thanks</p>
