

Redmine - Patch #9102

Dry up MailHandler logging

2011-08-22 22:02 - Alex Shulgin

Status: Closed	Start date: 2011-08-22
Priority: Normal	Due date:

Category: Code cleanup/refactoring	Estimated time: 0.00 hour
Target version:	
Description Attached patch removes duplicated checks on logger presence in the MailHandler. Also, running "if logger && logger.info" seems to be a dumb thing and adds spurious empty log lines. The fix is to make logger call always return a non-nil object, even when logger is set to nil in the environment configuration file (a default in production.) It might be good to include into Rails itself, so you never need to write another "if logger" line.
