it is say that can't show chinese file name right in redmine's repository! chinese file name made in windows. but used TortoiseGit is OK!

#3 - 2011-09-22 10:23 - Toshi MARUYAMA

- Subject changed from git+redmine[] to Git: Redmine can't show Simplified Chinese character in filenames in git repository
- Category set to SCM
- Status changed from Reopened to Closed

Set Simplified Chinese encoding name on your repository setting.

Redmine has tests of path encoding.
You need to use above git 1.7.2 or set "core.quotepath=false".

See [source:tags/1.2.1/lib/redmine/scm/adapters/git_adapter.rb#L363](https://source.tags/1.2.1/lib/redmine/scm/adapters/git_adapter.rb#L363)

first : Server ubuntu 10.04 git-core 1.7.04 gitolite gitk redmine 1.2.1 mysql 5.1.4
Client msygit 1.7.3,TortoiseGit 1.6
git repo made by gitolite.than on client TortoiseGit OK! on server gitk OK! but in redmine NO OK!
set server git config --globe "core.quotepath=false" The problem same.

update my git-core 1.7.6 than tst The problem same. I don't why!

Could you show me your server environment and config?

Thank you!

- Status changed from Reopened to Closed

All Redmine tests pass.

This is Redmine issue tracker, not supporting.
You should open topic on forum.

#10 - 2011-09-23 04:28 - Bogor shi

Help in your.
I have fix the problem. and i write here for others; I am sorry to make issue tracker is support!
Thank you very much!

```
update git-core 1.7.2 (http://packages.debian.org/source/squeeze/git)  
git config --system core.quotepath false
```

everything is OK!
