Description

Although everything is checked under the Email Notification Settings I'm unable to receive emails when a New Item, Document or File is added.

Email notifications work for Adding/Updating an Issue or Message.

I'm using revision 1291

To receive the notifications for News, Documents or Files, make sure:

- you're a member of the project
- your email preference (on your account) is set to 'For any event...'

- Status changed from New to Resolved

Thanks Jean-Philippe,

I needed to have "For any event...." checked.

Thanks,

Clyde
