

Redmine - Defect #9370

Modifying time_entry gives 403 forbidden

2011-10-04 09:45 - Pasi Oja-Nisula

Status:	Closed	Start date:	2011-10-04
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	REST API	Estimated time:	0.00 hour
Target version:		Affected version:	1.2.0
Resolution:	Invalid		

Description

I'm trying to modify a time entry. Here's the test program.

```
-----  
from pyactiveresource.activeresource import ActiveResource  
  
class TimeEntry(ActiveResource):  
    _site = 'https://redmine.goodsign.fi'  
    _user = 'myusername'  
    _password = 'mypassword'  
    _request_format = 'xml'  
  
time_entries = TimeEntry.find()  
print time_entries  
entry = time_entries[0]  
print entry.comments  
entry.comments = "tesmi2"  
entry.save()  
-----
```

Redmine log shows this:

Processing TimelogController#index to xml (for 172.23.195.2 at 2011-10-04 10:23:14) [GET]
Parameters: {"format"=>"xml", "action"=>"index", "controller"=>"timelog"}
Rendering timelog/index
Completed in 30ms (View: 2, DB: 9) | 200 OK [https://redmine.goodsign.fi/time_entries.xml]

Processing TimelogController#update to xml (for 172.23.195.2 at 2011-10-04 10:23:15) [PUT]
Parameters: {"time_entry"=>{"comments"=>"tesmi2", "created_on"=>"2011-10-04T09:32:46+03:00", "activity"=>{"name"=>"Development", "id"=>"9"}, "id"=>"28", "project"=>{"name"=>"Test", "id"=>"7"}, "updated_on"=>"2011-10-04T09:32:46+03:00", "spent_on"=>"2011-10-04", "issue"=>{"id"=>"5047"}, "hours"=>"1.0", "user"=>{"name"=>"Pasi Oja-Nisula", "id"=>"4"}}, "format"=>"xml", "action"=>"update", "id"=>"28", "controller"=>"timelog"}
Filter chain halted as [:find_time_entry] rendered_or_redirected.
Completed in 16ms (View: 0, DB: 4) | 403 Forbidden [https://redmine.goodsign.fi/time_entries/28.xml]

Thanks!

Are you sure that your user is allowed to see the time entry when going through application screens?

#2 - 2011-10-04 21:45 - Pasi Oja-Nisula

- Status changed from New to Resolved

You have good eye for newbie errors. I was trying to do too many things which I don't understand. When I skipped the activeresource part and tried with curl, I got this to work. Here's the working example.

```
echo '<time-entry><issue_id>5047</issue_id><hours>1.5</hours><activity_id>9</activity_id><comments>tesmi6</comments></time-entry>' | curl -k -u myusername:mypassword -X PUT -H 'Content-type: text/xml' -H 'Accept: text/xml' -d @ https://redmine.goodsign.fi/time\_entries/28.xml
```

Thanks!
