

Redmine - Defect #9383

Allow manage attachment(s) before submit

2011-10-06 14:58 - Ladislav Nesnera

Status:	Closed	Start date:	2011-10-06
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Attachments	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Duplicate		
<b>Description</b> There is a problem to remove selected file(s) for upload. If you use Firefox you can see field(s) with file path which looks editable but it isn't (under Chromium this field is hidden). Yes, you can achieve this goal by writing wrong file name (or path) but some Remove button (like Gmail solution) would by better (BTW - would be fine to check that path to file is correct and display warning if not)  maybe tied issue <a href="#">#9086</a>
