Do you map Redmine user and SCM commit user?

Do you assign Redmine user to project?

#4 - 2011-10-10 04:48 - alan blount

Sorry I don't think so. The email addresses are exactly the same, but I have not setup any sort of User Mapping.

I just looked it up and the wiki information on it is "TODO":

<http://www.redmine.org/projects/redmine/wiki/RedmineRepositories#Repository-user-mapping>

Would you like to educate me?

Excellent - thanks - I have updated the wiki.

I have made the mappings on my project.

I'll be experimenting today and will update this ticket accordingly.

Any progress?

#8 - 2011-11-28 19:57 - alan blount

- Status changed from New to Resolved

Yes indeed -- once the mappings were done, we've had no issues -- thanks much!

#9 - 2011-11-28 20:01 - Etienne Massip

- Status changed from Resolved to Closed

- Resolution set to Invalid
