<b>Description</b> We run a team of contractors. I would like to have the option to have my developers to see their time on the project but not the entire time for everyone else. There are times when that is not appropriate.  Suggested implementation: In role options (admin) seperate view time entries into - 'view my time entries' and 'view all time entries'.	
<b>Related issues:</b> Is duplicate of Redmine - Feature #8929: Permission to view only your own tim... <b>Closed</b> <b>2011-07-28</b>
