

Redmine - Defect #9796

Redmine cpu use and memory consumption problem

2011-12-14 12:50 - Keidson Freitas

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:		Affected version:	1.2.1
Resolution:	Duplicate		
Description			
<p>This maybe relates to the issue #633, but i am able to reproduce it. When i click on any file that are in a revision, to open the entire file, my server cpu goes to 100% and memory consumption starts to grow until the server crashes. This does not happen when i click in diff to see only the file diff. I am using mongrel 1.2.0 pre with the latest patches and subversion server 1.7.1 via http protocol. I am creating a new issue because the issue #633 is very old and no one seems to be looking for it anymore. When a restart the server the production.log show a output that seems like he was trying to load all files from repository. Sorry for the bad english.</p>

History

#1 - 2011-12-17 02:14 - Toshi MARUYAMA

- Assignee deleted (Toshi MARUYAMA)

#2 - 2011-12-17 02:15 - Toshi MARUYAMA

- Status changed from New to Closed

- Resolution set to Duplicate

As discussing at [#9813](#), remote svn is very slow.
