Description

When someone send a link to a diff, the only way to get the revision is to edit the URL in the browser:

http://www.redmine.org/projects/redmine/repository/revisions/8222/diff

No link points to http://www.redmine.org/projects/redmine/repository/revisions/8222

Regards.

Is it intended to patch source:trunk/app/models/repository/mercurial.rb@8530 ?

Regards.
