

## Redmine - Feature #9846

### Provide the way for theme developers to set the row height in SCM history view

2011-12-20 15:01 - Alex Pogodin

<b>Status:</b>	Closed	<b>Start date:</b>

<b>Target version:</b>			
<b>Resolution:</b>	Duplicate		
<b>Description</b>			
<p>It's not correct to rely on the row height 20px set in <a href="source:branches/1.3-stable/public/stylesheets/application.css#L165">source:branches/1.3-stable/public/stylesheets/application.css#L165</a>, cause, for example on my system (using Gnome/Linux) only checkbox takes 15px, plus cell padding etc. yields 26px total row height.</p> <p>It'll be very good if we give theme authors the way to pass their settings in the branchGraph function. The 20px value for ystep is hardcoded (<a href="source:branches/1.3-stable/public/javascripts/revision_graph.js#L29">source:branches/1.3-stable/public/javascripts/revision_graph.js#L29</a>) now. I managed to override the <i>entire function (!)</i> in theme.js, but I consider it is the wrong way.</p> <p>BTW. I think the script /javascripts/revision_graph.js is written in awfull manner: it polutes global namespace, uses window.onload assignment instead of adding load listener...</p>

Is duplicate of Redmine - Defect #9832: Revision graph height should depend o... <span style="float: right;"><b>Closed</b></span>			

#### History

##### #1 - 2011-12-20 15:15 - Alex Pogodin

- File 00.png added

As seen on the screenshot attached, graph nodes are not aligned with table rows

##### #2 - 2011-12-20 23:18 - Toshi MARUYAMA

Try [#9832](#) patch.

##### #3 - 2012-02-06 05:38 - Toshi MARUYAMA

- Status changed from New to Closed

- Resolution set to Duplicate

[#9832](#) fixed revision graph height by JavaScript.
