Redmine - Defect #9920

Custom fields of type "User" can't be ordered and used in custom queries for all projects

2012-01-04 14:49 - Keidson Freitas

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**

Category:	Custom fields	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Duplicate	**Affected version:**	1.3.0

Description

The fields of type user don't allow me to sort by them in the issue list, and this fields also can't be used in custom queries when "For all projects" is checked, even if i check then as for all projects in custom field creation. I have other custom fields of type text that can be sorted and used in custom queries for all projects.
