Sorry there is an issue in the patch :
in **app/helpers/timelog_helper.rb**

here are 2 lines to add at the beginning:

```
...
...
# Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA  02110-1301, USA.

#html_escape
include ERB::Util

module TimelogHelper
...
...
```

Might be ok with one test or two. Does it break anything in global views ? I must admit I don't use time tracking a lot.

I don't think so, it just replaces text by links, and the changes are only applied when a new parameter is triggered.

It's a part of Redmine that we are using more and more and that we have enhanced a lot.

Hi everyone!

I've made a patch which adds links to issues and **hours**. We really missed links on hours.
Tested on current version 2.1.2.
Your feedback is very welcome. I could make small plugin for this if someone want to use it.

See attached screenshot.

Excellent,

The links show the time entries for the related issue ?

#6 - 2012-10-26 13:06 - Egidijus Zideckas

No, actually it opens Issue. But if you want to open time entries of issue you can click on total column of interested issue line.
My idea was to link hours to time entries, not issues. Issue contains regular issue link.

Most of the original requests from this ticket were implemented in #29042. I think that we can close this issue.
