- Subject changed from *Time entries insertion, Cancel button and "Create and continue checkbox"* to *Time entries insertion, "Create and continue" button*
- Category set to *UI*
- Status changed from *New* to *Closed*
- Assignee set to *Jean-Philippe Lang*
- Target version set to *1.4.0*
- Resolution set to *Fixed*

I've added a "Create and continue" button for consistency, instead of a checkbox. And I've omitted the "Cancel" button as there's no such button on other regular forms.
