Subject:	E-mail reporting		
Description:	In addition to the PDF output, I'd really wish to see an email report. One could send Issue detail like in PDF output but straight to freely written e-mail address and/or to a registered user. This report could be done by sending the PDF as attachment or inline report.

Should have noticed issue #585

Just delete this please :)

I don't really see the point with #585, it's about updating issue notes ?

Sorry, the note should have gone into different Issue.
