Description			
<p>Is it possible to get Redmine to send e-mail notification of file downloads, like it does for e.g. file uploads?</p> <p>We'd like e.g. the project manager(s) to get notifications when files published by their project are downloaded, and who by - you have to be logged into our Redmine installation.</p> <p>By files, I'm mostly thinking of those on the "Files" tab, but perhaps this also applies to "Documents" and attachments on issues and the wikis...</p> <p>Is this possible with Redmine or a plug-in?</p> <p>Heh, I guess this is related to requested feature #6039 that I raised a year ago.</p>
