| Description | | | |
| <p>Trackers that are disabled in the main project but enabled in a subproject are shown in the project overview of the main project. I think this is a small issue because you can not create a ticket in one of this trackers in the main project so the containing tickets always are (0/0).</p> <p>A similar ticket was already fixed some years ago: http://www.redmine.org/issues/2550</p> <p>You can comprehend this issue here: https://ticket.piraten-nds.de/projects/oldenburg Only Posteingang, Ideen und Hinweise, Aufgaben and Sonstiges are trackers that are enabled in the main project. All other trackers are disabled in the main project but enabled in one of the sub projects. They should not be shown in the overview of the main project.</p> <p>Regards Floh1111</p> | | | |

Revision 20635 - 2020-12-12 06:40 - Go MAEDA

Fix that disabled trackers of subprojects are listed in project overview (#10084).

Patch by Yuichi HARADA.

History

#1 - 2020-01-13 05:30 - Go MAEDA

I think trackers that are not enabled in subprojects should not be displayed in Issue tracking box if "Display subprojects issues on main projects by default" setting is disabled.

However, trackers disabled in the current project but enabled in subprojects should also be displayed in Issue tracking box if the setting is enabled. The reason is that issues with such trackers are displayed in the issues list.

The summary page (`projects/:id/issues/report/tracker`) already behave like above. The issue tracking box in the overview page should behave as the same for consistency.

#3 - 2020-06-25 14:45 - Go MAEDA

- *Category changed from Accounts / authentication to Projects*

#4 - 2020-10-29 05:58 - Yuichi HARADA

- *File fixed-10084.patch added*

I have created a patch what trackers are not enabled in the parent project should not be shown in the Issue tracking box if "Display subprojects issues on main projects by default" setting is disabled.

```

#5 - 2020-10-29 07:45 - Yuichi HARADA

- Copied to Defect #34185: Trackers of subprojects are not displayed in the Issue summary page added

#6 - 2020-11-09 10:52 - Go MAEDA

- Target version set to Candidate for next major release

#7 - 2020-12-05 03:15 - Go MAEDA

- Target version changed from Candidate for next major release to 4.2.0

The patch fixes an issue that trackers that are enabled only in subprojects are displayed in the issue tracking box in the "Overview" page even when Setting.display_subprojects_issues?

I slightly changed the patch:

- Changed the test name
- Fix RuboCop's Rails/DynamicFindBy warning

Setting the target version to 4.2.0.

#8 - 2020-12-08 02:58 - Go MAEDA

- File 10084-v2.patch added

Go MAEDA wrote:

I forgot to attach the patch.

#9 - 2020-12-12 06:41 - Go MAEDA

- Category changed from Projects to Issues

- Status changed from New to Closed

- Assignee set to Go MAEDA

- Resolution set to Fixed

Committed the fix. Thank you.
