Redmine - Feature #10118

Workflow needs assignee roles allowed

2012-02-01 06:18 - Sang-jae Shin

Status:	New	**Start date:**	2012-02-01
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Permissions and roles	**Estimated time:**	0.00 hour
Target version:			
Resolution:			

Description

Current workflow is made of:
writer role, trakcer, current issue, new status allowed

Additionaly, I want to mix up with 'new assignee roles allowd'.
For example, some role change issue status wich is allowed.
When some role change assignee, only user who is in allowed assignee role can select.

If you are in 'resolved' status, you can assign it to 'Tester' role.
