Redmine - Defect #10146

Can't view file trough SVN repository

2012-02-03 15:21 - Rodrigo Braz

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	1.3.0

Description

After upgrading from redmine 1.2.0 to 1.3.0 I can't view the contents of my repository files, altough I can browse the entire structure. I've attached the log file.

Thanks in advance.

History

#1 - 2012-02-03 15:31 - Rodrigo Braz

After looking closely to the log file I've found that the issue is related to the method _toutf8 not being found in the ultraviolet plugin. Am I missing something?

#2 - 2012-02-03 16:00 - Etienne Massip

- Status changed from New to Closed

- Resolution set to Invalid

You didn't miss anything, it only means that the Ultraviolet plugin version you've installed is not 1.3 compatible; you should contact its author or post in the Plugins forum.
