

Redmine - Feature #10162

require notes on specific fields getting set to specific values

2012-02-06 21:18 - Gerry Hawkins

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Issues workflow	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Resolution:</b>			
<b>Description</b>  This may be covered in <a href="#">#8050</a> , or relates to it.  What I would like is a way to force / require the user to update the notes field when a target version is either removed completely or changed.  That is a specific workflow, there are probably others that could be created where a change in a certain field should require the user to make a comment about that change. e.g. setting status to duplicate without specifying the other issue #.

Well this could be useful, but I think this will be very complicated. Do you have a proposal how to define the interface for such a rule-system?
