Description

I am having an issue with Spent Time reports - the system refuses to give me access to the pages (/timelog/details, /timelog/report).

I have given all the necessary access to a Role called: Project Manager.

Please see the attached screenshots.

I've also got all the logs possible when opening the page below:

Hi Martin, I have the same problem as you, but I am using redmine 1.3. I upgraded from 1.1.2 straight to 1.3. I noticed in 1.1, the URL for the time entry reports was .../time_entries/report so I tried that in 1.3 and it worked. If you are still having this problem try that old URL and see if it works for you.

#3 - 2020-12-12 06:50 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Cant reproduce
