

Redmine - Defect #10198

message_id regex in pop3.rb only recognizes Message-ID header (not Message-Id)

2012-02-10 15:15 - Elie Delorme

Status:	Closed	Start date:	
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:	1.4.0	Affected version:	
Resolution:	Fixed		
Description Some servers specify message id as "Message-Id" (lowercase 'd') This is a minor issue since it only affects logging but fixing the regex makes it easier to track mail processing. Simple fix: (message =~ /^Message-Id[Dd]: (.*)/ ? \$1 : "").strip instead of: (message =~ /^Message-ID: (.*)/ ? \$1 : "").strip
