When creating or updating an issue, the uploaded attachments are lost if the validation fails (e.g., required field left blank). The user needs to select them again and reupload them.

Uploaded attachments should be preserved when the user re-submit the form.

Revision 8891 - 2012-02-16 22:00 - Jean-Philippe Lang
Better handling of attachments when issue validation fails (#10253).

Revision 8893 - 2012-02-16 22:18 - Jean-Philippe Lang
Adds a rake test that removes old unattached uploads (#10253).

This would be an awesome addition/fix!

+1

#2 - 2012-02-23 14:13 - Jean-Philippe Lang
- Status changed from New to Closed
- Resolution set to Fixed

Done.
