

Redmine - Defect #10274

FlashFireBug Warning Limit

2012-02-19 00:24 - Todd Leishman

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
Description			
I'm running your flashfirebug tool, but in the Output window it always gives a message: "Warning: Reached warning limit of 100." I bought your Pro version thinking that would take care of it, but it didn't. I then edited the mm.cfg file for flash, but it always gets reset to its default state. I've edited it several times. Any ideas?
