

## Redmine - Defect #10278

### Related issues field lost after upgrade to 1.3.0

2012-02-20 13:00 - Alexander Reznik

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Issues	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	1.3.0
<b>Resolution:</b>	Invalid		
<b>Description</b>			
After upgrade to Redmine 1.3.0 (from 1.2.1) field "related issues" not shown, if issue already has not any relations. I double check rights of management issues relations, but no one couldn't add a related issue.			
<b>Related issues:</b>			
Is duplicate of Redmine - Defect #9969: First relation adding is not available <span style="float: right;"><b>Closed</b></span>			

### History

#### #1 - 2012-02-20 19:32 - Jean-Philippe Lang

- Resolution set to *Cant reproduce*

#### #2 - 2012-02-21 08:47 - Alexander Reznik

How can I help to reproduce this bug?

Maybe you need some database dumps to reproduce? In our setup we use a lot of groups with different rights, I think it could affect.

#### #3 - 2012-02-22 22:03 - Jean-Philippe Lang

Any plugins, custom changes, custom themes... ?

#### #4 - 2012-02-23 04:35 - Tao Lin

I got the same issue as well. I have follow plugins:

- Advanced roadmap & milestones plugin
- Redmine Exception Handler plugin
- Redmine Light Box plugin
- Redmine Logs plugin

Before I upgrade, I also use above plugins as well without any problem.

#### #5 - 2012-02-23 09:07 - Tim Briggishaw

Exactly the same problem here. Upgraded to 1.3.1, Related Issues section no longer available for those issues which did not previously have them (or for new issues).

Plugins:

```
redmine_backlogs
redmine_closed_issue
redmine_importer
redmine_spent_time_column
```

No changes were made when upgrading from 1.2.1.  
Running on RHEL 6, Ruby 1.8.7, gems 1.3.6

#### #6 - 2012-02-23 09:11 - Alexander Reznik

plugins:

Advanced roadmap & milestones plugin  
Redmine Default Version plugin  
Redmine Wysiwyg Textile - not using, but installed.

Running on Ubuntu 10.04, Mongrel Web Server 1.1.5, Ruby 1.8.7, gems 1.3.7

I've done some source code research and looks like bug is somewhere in access right check.

#### #7 - 2012-02-23 12:45 - Sébastien Gripon

I have also a problem with issues relation bu for me, the field is here, the AJAX part seems to work when I enter a number but the OK button does nothing. Maybe it is related with [#7688](#) because in logs, I have this:

```
Processing IssueRelationsController#new (for 10.38.129.84 at 2012-02-23 12:36:28) [POST]
  Parameters: {"commit"=>"Add", "issue_id"=>"3114", "action"=>"new", "authenticity_token"=>"xxxxxx", "relation"=>{"delay"=>"", "issue_to_id"=>"3028", "relation_type"=>"relates"}, "controller"=>"issue_relations"}
Filter chain halted as [:find_relation] rendered_or_redirected.
Completed in 0ms (View: 0, DB: 0) | 404 Not Found [http://redmine.neopost.grp/issue_relations/new?issue_id=3114]
```

Nut the good address for me should be:

[http://redmine.neopost.grp/redmine/issue\\_relations](http://redmine.neopost.grp/redmine/issue_relations)

However, mongrel\_patch seems to not work any more.

Update: In fact I have version 1.3.0

#### #8 - 2012-02-23 14:23 - Etienne Massip

- Status changed from New to Closed

- Resolution changed from Cant reproduce to Invalid

Duplicate of [#9969](#); this behavior is caused by a plugin.

#### #9 - 2012-02-23 15:59 - Tim Brigginshaw

OK, works fine now, thanks for the feedback.

For information, the redmine\_closed\_issue (0.2) plugin caused the error:

The following plugins continue to work fine

redmine\_backlogs (0.7)  
redmine\_importer  
redmine\_spent\_time\_column

#### #10 - 2012-02-28 04:40 - Tao Lin

And after upgrade 'Advanced roadmap & milestones' plugin from 0.4.0 to 0.5.1, my Redmine 1.3.0 also works now.

Thanks, guys!

#### #11 - 2012-03-28 16:33 - Martin G

Is at this moment the only solution uninstalling the redmine\_closed\_issue plugin?

#### #12 - 2012-04-26 17:13 - Chris Magowan

i have installed (nearly) the latest version of Redmine (1.4.0), but i am still missing this "related issues" options. has the fix been released?
