<b>Category:</b>	UI	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	1.3.1
<b>Resolution:</b>	Invalid		
<b>Description</b>			
Steps to reproduce:			
- show ticket list			
- right click in list where no text is			
Expected Result: Shows Redmine context menu for bulk edit			
Observed (incorrect) result: Redmine context menu is opened, but overlaid by the browser's right-click menu.			
Observed in Firefox 10.0.2 (WinXP SP3 x86). Seems to work well in IE8 (only Redmine context menu shown)

- Resolution set to *Cant reproduce*

Works fine for me with Firefox 10.0.2 and Windows 7.

##### #2 - 2012-02-23 10:32 - Etienne Massip

Idem, works fine for me with XP and FF 13a.

Ooops - have investigated further, my fault.

I use a plugin named "Controle de scripts", and there is a setting to forbid JavaScript to replace or deactivate the browser context menu.

Changed the setting to "allow", and the problem is gone now. Mea culpa ... sorry for any inconvenience.
