

## Redmine - Defect #10284

### Note added by commit from a subproject does not contain project identifier

2012-02-20 18:02 - david warburton

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Jean-Philippe Lang	<b>% Done:</b>	0%
<b>Category:</b>	SCM	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	1.3.2	<b>Affected version:</b>	1.3.0
<b>Resolution:</b>	Fixed		
<b>Description</b>			
<p>When a commit in a subproject references an issue in the parent, a comment from Anonymous is added to the issue that says: "Applied in changeset commit:90812738092374"</p> <p>There should also be a project identifier in the comment, so the reference hyperlinks correctly: "Applied in changeset subproject-identifier:commit:90812738092374"</p> <p>This behavior was observed on Redmine 1.3.0.stable.8692. The parent project has no repository and the child is associated to a mercurial repository. In the global Redmine configuration section "Repositories &gt; Referencing and fixing issues in commit messages" the setting "Applied Status" is set to "Resolved" and "% Done" is set to "100 %".</p> <p>Other version information:</p> <pre>\$ RAILS_ENV=production ruby script/about About your application's environment Ruby version      1.8.7 (i686-linux) RubyGems version  1.6.2 Rack version      1.1.3 Rails version     2.3.14 Active Record version 2.3.14 Active Resource version 2.3.14 Action Mailer version 2.3.14 Active Support version 2.3.14 Application root  /var/www/redmine Environment       production Database adapter  mysql Database schema version 20110902000000 \$ mysql --version mysql Ver 14.14 Distrib 5.1.41, for debian-linux-gnu (i486) using readline 6.1 \$ hg --version Mercurial Distributed SCM (version 2.1)</pre>			

#### Associated revisions

Revision 8917 - 2012-02-20 22:58 - Jean-Philippe Lang

Fixed magic link in the note added when closing an issue by a commit from a subproject (#10284).

#### History

**#1 - 2012-02-20 22:59 - Jean-Philippe Lang**

- *Subject changed from automatic commit referencing from subprojects to Note added by commit from a subproject does not contain project identifier*
- *Category set to SCM*
- *Status changed from New to Resolved*
- *Assignee set to Jean-Philippe Lang*
- *Target version set to 1.3.2*
- *Resolution set to Fixed*

Fixed in r8917.

**#2 - 2012-03-05 14:07 - Jean-Philippe Lang**

- *Status changed from Resolved to Closed*

Merged.
