Description			
Hello,			
i have tried all the given different solutions to that NoMethodError and send_cookies problem.			
I still get the errors.			
The redmine i use is : svn - Revision 8976: /branches/1.3-stable

I am using thin now by this docu:

<http://blog.posativ.org/2011/redmine-sqlite3-lighttpd-thin/>

Works well.

Hope anyone helps this!

Not a Redmine defect, see [#7688](#), [#8524](#) (found in 3 seconds by using top search form).

As i said, i already looked for it but the solutions provided didn't work and i added info about my setup so maybe others have an a-ha effect or not or

whatever.

I thought anyone cares, but as it seems you don't.

Anyway, no reason to get cynical lad.

Sorry for that, I have seen this issue so many times.

Did you check [#7688#note-16](#) because the mongrel gem is not included in your gems list?

#4 - 2012-02-24 20:07 - Barry Krein

I added it as debian package.

```
dpkg -l |grep mongrel
ii  mongrel                    1.1.5-5          A small fast HTTP libr
ary and server for Ruby
```

I am running a debian squeeze

#5 - 2012-02-24 20:08 - Barry Krein

and my installed ruby packages

```
dpkg -l |grep ruby
