

## Redmine - Feature #10331

### Per-project 'Issue Closed' status customization

2012-02-27 21:40 - Kean Stump

<b>Status:</b> New	<b>Start date:</b>																																										
<b>Priority:</b> Normal	<b>Due date:</b>																																										
<b>Assignee:</b>	<b>% Done:</b> 0%																																										
<b>Category:</b> Issues workflow	<b>Estimated time:</b> 0.00 hour																																										
<b>Target version:</b>																																											
<b>Resolution:</b>																																											
<b>Description</b>																																											
<p>We are getting internal requests for the ability to set the various issue statuses (states, statii?) that map into 'Issue Closed' on a per-project basis.</p> <p>Currently the issue statuses mapping affects all projects in the redmine instance. Our development projects have different status models, and this change would allow developers to use the status model that fits their workflow.</p> <p>Example:</p> <p>Project A would like the following:</p> <table><thead><tr><th>Status</th><th>Default value</th><th>Issue closed</th></tr></thead><tbody><tr><td>New</td><td>X</td><td></td></tr><tr><td>Assigned</td><td></td><td></td></tr><tr><td>Resolved</td><td></td><td>X</td></tr><tr><td>Feedback</td><td></td><td></td></tr><tr><td>Closed</td><td>X</td><td></td></tr><tr><td>Rejected</td><td>X</td><td></td></tr></tbody></table> <p>Project B would like the following:</p> <table><thead><tr><th>Status</th><th>Default value</th><th>Issue closed</th></tr></thead><tbody><tr><td>New</td><td>X</td><td></td></tr><tr><td>Assigned</td><td></td><td></td></tr><tr><td>Resolved</td><td></td><td></td></tr><tr><td>Feedback</td><td></td><td></td></tr><tr><td>Closed</td><td>X</td><td></td></tr><tr><td>Rejected</td><td>X</td><td></td></tr></tbody></table> <p>I've looked through the feature requests and plugins and haven't seen anything that enables this. Enlightenment requested if I'm blind.</p>		Status	Default value	Issue closed	New	X		Assigned			Resolved		X	Feedback			Closed	X		Rejected	X		Status	Default value	Issue closed	New	X		Assigned			Resolved			Feedback			Closed	X		Rejected	X	
Status	Default value	Issue closed																																									
New	X																																										
Assigned																																											
Resolved		X																																									
Feedback																																											
Closed	X																																										
Rejected	X																																										
Status	Default value	Issue closed																																									
New	X																																										
Assigned																																											
Resolved																																											
Feedback																																											
Closed	X																																										
Rejected	X

+1

**#2 - 2012-03-01 17:16 - Etienne Massip**

- *Category set to Issues workflow*

**#3 - 2012-03-02 21:59 - Joshua Stein**

+1

**#4 - 2012-03-04 17:53 - Terence Mill**

sorry, but i set my +1 wrong.

It doesn't make sense to have close status per project but per tracker. At the moment you can define workflow per tracker but only one start and end state for all trackers.

+1 for optionally own start and end state per tracker not per project

**#5 - 2013-01-12 19:21 - Daniel Felix**

This relates to #973.

Maybe it could be closed as duplicate? If the whole functionality of #973 getting implemented, he should be able to implement this!
