

Redmine - Defect #10334

Full name is not unquoted when creating users from emails

2012-02-28 15:50 - Lauri Tirkkonen

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:	1.4.0	Affected version:	1.3.0
Resolution:	Fixed		
Description			
Ruby version 1.8.7 (x86_64-linux) RubyGems version 1.7.2 Rack version 1.1 Rails version 2.3.14 Active Record version 2.3.14 Active Resource version 2.3.14 Action Mailer version 2.3.14 Active Support version 2.3.14 Edge Rails revision unknown Application root /usr/share/redmine Environment production Database adapter sqlite3 Database schema version 20110902000000			
When creating users from emails with internationalized From-headers, fullname is not unquoted.			
The following email, passed to rdm-mailhandler.rb (with appropriate --url, --key, --project, --tracker, --no-permission-check options and --unknown-user=create)			
<pre>From: =?utf-8?b?w4TDpCDDlsO2?= <foo@example.org> Subject: foo Content-Type: text/plain; charset=utf-8 testing user creation with quoted From-header creates a user whose fullname is set to '=?utf-8?b?w4TDpCDDlsO2?=', when it should in fact be set to "Ää Öö".</pre>			
The attached patch based on the 1.3-stable branch (svn r8910) fixes this issue.			
(It's possible this is actually a bug in TMail (which is what Rails 2 uses), but that doesn't seem to be maintained anymore; the last release and latest mail sent to its mailing list were in 2010.)			

Associated revisions

Revision 9043 - 2012-03-01 16:32 - Jean-Philippe Lang

MailHandler: fixed that sender's fullname is not unquoted (#10334).

History

#1 - 2012-03-01 16:33 - Jean-Philippe Lang

- Assignee set to Jean-Philippe Lang
- Target version set to 1.4.0
- Resolution set to Fixed

Fixed and test added in [r9043](#). Thanks.

#2 - 2012-03-01 16:33 - Jean-Philippe Lang

- Status changed from New to Closed
