Redmine - Defect #10334
Full name is not unquoted when creating users from emails
2012-02-28 15:50 - Lauri Tirkkonen

Status: Closed  Start date: 
Priority: Normal  Due date: 
Assignee: Jean-Philippe Lang  % Done: 0%
Category: Email receiving  Estimated time: 0.00 hour
Target version: 1.4.0  Affected version: 1.3.0
Resolution: Fixed

Description

Ruby version              1.8.7 (x86_64-linux)
RubyGems version          1.7.2
Rack version              1.1
Rails version             2.3.14
Active Record version     2.3.14
Active Resource version   2.3.14
Action Mailer version     2.3.14
Active Support version    2.3.14
Edge Rails revision       unknown
Application root          /usr/share/redmine
Environment               production
Database adapter          sqlite3
Database schema version   20110902000000

When creating users from emails with internationalized From-headers, fullname is not unquoted.

The following email, passed to rdm-mailhandler.rb (with appropriate --url, --key, --project, --tracker, --no-permission-check options and --unknown-user=create)

From: =?utf-8?b?w4TDpCDDlsO2?= <foo@example.org>
Subject: foo
Content-Type: text/plain; charset=utf-8

testing user creation with quoted From-header

creates a user whose fullname is set to '='utf-8?b?w4TDpCDDIsO2?= ' , when it should in fact be set to "Ää Öö".

The attached patch based on the 1.3-stable branch (svn r8910) fixes this issue.

(It's possible this is actually a bug in TMail (which is what Rails 2 uses), but that doesn't seem to be maintained anymore; the last release and latest mail sent to its mailing list were in 2010.)

Associated revisions

Revision 9043 - 2012-03-01 16:32 - Jean-Philippe Lang

MailHandler: fixed that sender's fullname is not unquoted (#10334).
Fixed and test added in r9043. Thanks.

#2 - 2012-03-01 16:33 - Jean-Philippe Lang
- Status changed from New to Closed
