

Redmine - Defect #10404

Inaccurate warning on leaving edited issue page without saving when move a bug

2012-03-08 08:48 - pasquale [:dedalus]

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	1.3.0
Resolution:	Invalid		
Description When move a bug between project and add a comment in edit-move page, when click "Move" button, redmine show the warning related to leaving edited issue page without saving (bug #2910). User could be add message while move bug between project without throw warning on leaves\stay on page.			

History

#1 - 2012-03-08 09:12 - Etienne Massip

- Resolution set to Cant reproduce

Can't reproduce. Any plugins, etc.?

#2 - 2012-03-08 09:12 - Etienne Massip

- Priority changed from High to Normal

#3 - 2012-03-08 09:20 - pasquale [:dedalus]

yes, I have plugins installed but I don't think it's related to him: I attempt to try this behavior with fresh install version and post here the result (I hope in this day)

;-)

#4 - 2012-03-08 09:41 - pasquale [:dedalus]

fast test: yes you are right! with fresh install all work fine

=>Invalid, because isn't redmine related bug.

Sorry for the mistake

#5 - 2012-03-08 09:43 - Etienne Massip

- Status changed from New to Closed
- Resolution changed from Cant reproduce to Invalid

Np.
