Redmine - Defect #10416

Cannot Logout

2012-03-10 06:10 - Mom Cleomora

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
Resolution:	Cant reproduce		**Affected version:**	

Description

I've just upgraded to 1.3.1, everything works fine except I cannot Logging out.
It seems similar to [#9840](), [#9118]() but I could not solve with same solutions.

About my application's environment,
Ruby version   1.8.7 (i686-linux)
RubyGems version   1.4.2
Rack version   1.1
Rails version   2.3.14
Active Record version   2.3.14
Active Resource version   2.3.14
Action Mailer version   2.3.14
Active Support version   2.3.14
Application root   /home/jcit/rails_apps/redmine13
Environment   production
Database adapter   mysql

> except I cannot Logging out

More details please.

#2 - 2012-03-11 07:23 - Mom Cleomora

Thank you so much for asking.

It still keeps me in logged-in status after I clicked on Sign out.
This means, once I Logged in there is no way to log out other than deleting browser's cookie manually.

- Resolution set to Cant reproduce

The Set-Cookie header is broken when I try to logout from http://doraemon.phsaez.com.

I get:

```
Set-Cookie: autologin=; path=/; expires=Thu, 01-Jan-1970 00:00:00 GMT_redmine_session=xxx--xxx; path=/; HttpOnly
```

I should get:

```
Set-Cookie: autologin=; path=/; expires=Thu, 01-Jan-1970 00:00:00 GMT_
Set-Cookie: redmine_session=xxx--xxx; path=/; HttpOnly
```

I found a similar issue reported here: http://rubyforge.org/pipermail/mongrel-unicorn/2011-June/001001.html

It doesn't seem to be a Redmine issue but a rack/http server issue.

#4 - 2012-03-12 07:57 - Mom Cleomora

I see. I am following the thread. It seems that newer version of rail does not handle multiple cookies correctly.

Now I've disabled the Autologin, I still cannot logout.
Is this also same cookie broken issue?

- Status changed from New to Resolved

temporarily solved with hard code work around.

#6 - 2012-04-24 09:41 - Dominik Fuchshofer

Could you please post the workaround?

#7 - 2012-04-24 12:23 - Mom Cleomora

First of all let me say I don't know about ruby.

What I did is, moved this line --> **self.logged_user = nil** in account_controller.rb to make sure it is called when user logout.

Redmine1.3.1/app/controllers/account_controller.rb (After modified)

```
  def logout_user
    self.logged_user = nil
    if User.current.logged?
      cookies.delete :autologin
      Token.delete_all(["user_id = ? AND action = ?", User.current.id, 'autologin'])
    end
  end
```

Please look into this file, I guess it relates to the login/logout behavior.
