Hi I noticed that Redmine is still using Raphael 1.5.2 couldn't it be updated to latest version 2.0.2. Main advantage would be SVG rendering in IE9.

It already works with IE9?!

Yes is correct but only the new version will use SVG in IE9 instead of VML.

Category "SCM extra" is for reposman.rb and Redmine.pm.
source:tags/1.3.2/extra/svn
Revision graph is core feature.
raphael.js upgraded to 2.1.0 in r10368.
