#### Description

After I change the parent task, I get this error in the email notification:

translation missing: en, field\_root changed from to \_  
translation missing: en, field\_lft changed from 1 to 6  
translation missing: en, field\_rgt changed from 2 to 7

I'm currently running 1.3.1, but I also noticed the same message in version 1.1.2.
