Associated revisions

Revision 1343 - 2008-04-12 19:13 - Jean-Philippe Lang

Fixed: error when browsing an empty Mercurial repository (#1046).

History

#1 - 2008-04-12 19:18 - Jean-Philippe Lang

- Status changed from New to Resolved
- Resolution set to Fixed

Does your repository contain any commits ? Or is it a fresh repository ?
I've committed a fix in [r1343](#).
Can you confirm it fixes your problem ?

#2 - 2008-04-13 01:05 - Georg Koltermann

Yes the repo contains a lot of revisions, some 6000.

I tried latest trunk of redmine now, and it may have fixed it. It is still consuming 100% CPU after a couple minutes, I assume it is now building the DB cache of the repository history. I'll let it run for a while and go to sleep :)

#3 - 2008-04-13 10:59 - Jean-Philippe Lang

- *Status changed from Resolved to Closed*

- *Target version set to 0.7*

I assume it is now building the DB cache of the repository history

Yes, the changesets are stored in the database. I close this bug, reopen if needed.
Thanks for the feedback.
