

## Redmine - Defect #1049

### Redmine doesn't account for summer time (daylight saving time)

2008-04-12 19:39 - Thomas Löber

| Is duplicate of Redmine - Defect #855: Redmine does not recognize DST or is n...  |        | <b>Closed</b>            | <b>2008-03-14</b> |

#### History

##### #1 - 2008-04-15 05:02 - Reavis Sutphin-Gray

Do you have the tzinfo gem installed? I was having the same problem and installing tzinfo fixed it for me.

##### #2 - 2008-04-16 22:31 - Thomas Löber

Thanks for the hint!

The tzinfo gem didn't help on its own. I also had to run 'script/plugin install tzinfo\_timezone' to make it work.

Jean-Philippe, are you planning to add this gem and plugin to [www.redmine.org](http://www.redmine.org)?

##### #3 - 2008-05-21 21:48 - Thomas Löber

I'm still seeing the time 20:50 on [www.redmine.org](http://www.redmine.org) although it's already 21:50.

Can someone confirm this?

##### #4 - 2008-06-12 10:42 - Sven Schuchmann

I am having the same issue on my redmine [r1524](#) install

It is now:

Thu Jun 12 10:40:25 CEST 2008

If I change a Ticket it is shown to be changed at 9:40:25.

I tried installing the tzinfo\_timezone via:

```
SERVER:/home/redmine # ruby script/plugin install tzinfo_timezone
+ ./tzinfo_timezone/README
+ ./tzinfo_timezone/Rakefile
+ ./tzinfo_timezone/init.rb
+ ./tzinfo_timezone/lib/tzinfo_timezone.rb
+ ./tzinfo_timezone/test/tzinfo_timezone_test.rb
```

But after that redmine did not start anymore:

```
** Daemonized, any open files are closed. Look at /home/redmine/script/./config/./tmp/pids/mongrel.pid and
log/mongrel.log for info.
** Starting Mongrel listening at 0.0.0.0:2002
** Starting Rails with RM_Intern environment...

```

Can anyone help me?

#### #5 - 2008-06-12 12:54 - Thomas Löber

As Reavis mentioned you will also have to install the tzinfo gem.

#### #6 - 2008-06-13 10:47 - Sven Schuchmann

I tried installing "tzinfo" via via

```
ruby script/plugin install tzinfo
```

But all I get is:

```
svn: Connection closed unexpectedly
```

Anyone an idea?

#### #7 - 2008-06-13 10:57 - Sven Schuchmann

Sven Schuchmann wrote:

Okay, I fixed it.

Downloaded tzinfo.zip and copied it to vendor/plugins

Now it runs smooth...

#### #8 - 2008-06-13 13:43 - Thomas Löber

I rather thought of

```
gem install tzinfo
```

#### #9 - 2008-06-27 16:04 - Thomas Löber

- Status changed from New to Resolved

Actually this issue is a duplicate of [#855](#).

Nevertheless the `tzinfo_timezone` plugin should be added to [www.redmine.org](http://www.redmine.org) as well.

#### #10 - 2010-07-05 15:13 - Holger Just

- Status changed from Resolved to Closed

- Resolution set to Fixed

This is obviously resolved on redmine.org and elsewhere.
