Redmine - Feature #1051

My Page - Customisaton / Default behaviour - Reported Issues

2008-04-13 11:45 - Jason Milkins

Status:	Closed		**Start date:**	2008-04-13
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	My page		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate			

Description

Reported issues list on **My Page** view should be filtered to exclude closed issues by default.

- Suggest this be optional behaviour set for the block in **personalise** mode

Related issues:

Related to Redmine - Feature #895: Add "My tickets" to topmost menu	**Closed**	**2008-03-19**
Related to Redmine - Feature #12223: Make "My Page"-Widgets filterable	**Closed**	
Is duplicate of Redmine - Feature #1565: Custom query on My page	**Closed**	**2008-07-03**

History

#1 - 2008-04-14 20:36 - Maxim Krušina

IMHO this is great idea. Now "My Page" is good enough for our developers, but for me as a project it's insufficient. My original idea is described here: #895, but this seems to be a more "system" logic sollution.

So I need to:

- use same filters as on regular ticket's page including custom fields
- use custom number of lines per page, same as on ticket page

#2 - 2008-05-19 13:21 - gabriel scolan

I'm not sure it can be implemented by the same time, but it'd be great to be able to define the "My Page" with own built queries, using general or customized views visible by the user. This could then be organized by the user itself to see its issues per project (one frame per project if the user likes so).
As an extension, any page (wiki preferred pages, roadmap, queries, forums, ...) could be linked to the user "My Page".

We have just implemented the redmine project management tool. This is a great help if you're coming from 10+ trac installations, congrats on that !

One of the reasons i decided to migrate is the multi project support, we have multiple developmers working on multiple project. Exactly for this reason it would be of great help if you could manually decide what to list on the homepage. For a normal programmer the most important would be :

- assigned tickets sorted by priority
- assigned tickets for project X (you should be able to set this manually)

it's great to see that this is already a ticket and listed on the 0.8 roadmap. I'll watch this item.
If you need any help/suggestions feedback i would be happy to test/debug, i am using the trunk/svn version anyway.

#4 - 2008-11-11 10:39 - Jean-Philippe Lang

- Target version deleted (0.8)

#5 - 2013-04-09 22:49 - Filou Centrinov

Category: My page

#6 - 2013-04-10 04:06 - Toshi MARUYAMA

- Category changed from UI to My page

#7 - 2013-04-10 12:40 - Daniel Felix

This one could be resolved with the implementation of #895 or #12223. Which would be more generously.

#8 - 2014-06-24 01:33 - Toshi MARUYAMA

- Status changed from New to Closed

- Resolution set to Duplicate

Close as duplicate with [#1565](#).
[#1565](#) has more discussions.

#9 - 2014-06-24 01:33 - Toshi MARUYAMA

- Is duplicate of Feature #1565: Custom query on My page added
