Redmine - Defect #10518

Wrong link in email notifications for resolved issues

2012-03-22 12:04 - Sebastian Vassiliou

Status:	New	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Email notifications	**Estimated time:**	0.00 hour
Target version:			
Resolution:		**Affected version:**	1.3.1

Description

Since I upgraded from Redmine 1.1 to the latest 1.3.2 version, I noticed that the link on the Issue title in notification emails for issues being set as resolved is wrong. I have a http://mydomain/redmine/ url, and basically redmine/ is missing from the link. It appears to be fine in all other email notifications, it just affects the Resolved email.
(PS version 1.3.2 is missing from the select dropdown for Affected version)

A very likely case is if the setting's page doesn't contain the same 'Host name and path' as the correct URL.

However, give more specific information or this issue should be closed.
