Description

It would be nice to have an edit this section link for included pages. This way I don't have to drill into the included page then click on the edit link.

- Status changed from New to Needs feedback

Can you specify what you want to have? I'm not sure, if I know what you've requested.

Currently, I think you want the edit link if you include a wiki page on a roadmap version, or if you include a wikipage inside a issue or journal entry. Is this correct?
