Description
It would be really helpful if you could add Parent Task to the list of options available in the 'Group Results By' dropdown.
Or perhaps make the list of group by options, editable.

+42 for me. It's been 4 years that almost 20-30 users in this website are asking for it.
And do not mistake the group by and filter. they are not the same thing visually.

The issue is related to [#6816]() and [#6116]() and [#5325]()
and don't mistake by takins the issue [#5196]() since it was half resolved. the user asked to group, order and view parent task.
The order and view are resolved but not the group by feature.
