<b>Target version:</b>		<b>Affected version:</b>	
<b>Resolution:</b>	Fixed		

**Description**

<http://www.redmine.org/projects/redmine/repository/revisions/9288>

The screenshot shows the 'Repository' tab selected in a navigation bar. Below it, there are links for '<< Previous' and 'Next >>'. A text input field contains the number '123', and next to it is an 'OK' button.

#### Associated revisions

##### Revision 9299 - 2012-04-02 07:09 - Toshi MARUYAMA

scm: fix revisions page "OK" button always returns 404 error (#10567)

#### History

##### #1 - 2012-03-30 10:50 - Etienne Massip

Aside note: with a git mirror having multiple branches, the revision field default value is the branch name, which is wrong and obviously leads to the same 404 error.

##### #2 - 2012-04-02 08:01 - Toshi MARUYAMA

- Status changed from New to Closed
- Target version deleted (1.4.0)
- Resolution set to Fixed

Fixed by [r9299](#).

Redmine revision page does not support branch name.  
Because revision page reads only database and does not save branches info in database.

It returns OK.

<https://www.chiliprject.org/projects/chiliprject/repository/revision?rev=20a791>

It returns 404 error.

##### #3 - 2012-04-02 11:07 - pasquale [:dedalus]

Why target version has deleted? It's intentional?

##### #4 - 2012-04-02 11:22 - Etienne Massip

Guess that it was removed because it was a devel issue and not a change between 2 versions and thus doesn't need to appear on the changelog.

##### #5 - 2012-04-02 12:04 - Toshi MARUYAMA

Because 1.3-stable has no bug.

This bug is due to explicit route [r8162](#) and multiple repositories [#779](#).
