<b>Target version:</b>			
<b>Resolution:</b>	Duplicate		
<b>Description</b> <p>We would like to create customer views (create , edit and follow ) on our issues managed in redmine. The redmine own gui is not usable in this case, furthermore we wanna embedd this cutsomer views into our portal or company website deeply.</p> <p>To be able in our onw gui to trigger issue watching we need a rest api to add or remove watchers on issues. At the moment the <a href="#">Rest_Issues</a> does not support watchers at all</p>			
<b>Related issues:</b> <p>Is duplicate of Redmine - Feature #6727: Add/remove issue watchers via REST API</p>
