

Redmine - Defect #10683

Missing Gemfile.lock in latest 1.4 stable branch

2012-04-16 17:32 - Devin Weaver

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Gems support	Estimated time:	0.00 hour
Target version:		Affected version:	1.4.0
Resolution:	Invalid		
Description			
According to the Bundler documentation			
When deploying your code to a staging or production server, first run your tests (or boot your local development server), make sure you have checked in your Gemfile.lock to version control.			
There is no Gemfile.lock file in the working directory after performing the following SVN checkout:			
<pre>svn co http://redmine.rubyforge.org/svn/branches/1.4-stable redmine-1.4</pre>			
script/about

History

#1 - 2012-04-16 18:48 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Invalid

Gemfile.lock depends on the platform you want to deploy Redmine on. It won't be added to the Redmine repository.
