

Redmine - Defect #10689

PDF export prints brackets on wiki links

2012-04-17 13:59 - Cassiano Monteiro

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	PDF export	Estimated time:	0.00 hour
Target version:		Affected version:	1.4.0
Resolution:	Fixed		

Description

Exporting PDFs from wiki pages with wiki links produces this:

[[Definição de configurações]]	O sistema deve ser capaz de exibir as diferentes configurações presentes do banco de dados
[[Definição de condições de pista]]	O sistema deve ser capaz de definir diferentes conjuntos de condições de pista
[[Definição de condições atmosféricas]]	O sistema deve ser capaz de permitir ao usuário inserir as condições atmosféricas
[[Definição do aeroporto e pista]]	O sistema deve ser capaz de definir aeroporto/pista
[[Resultado das análises]]	O sistema deve ser capaz de consultar, interpolar e exibir as informações exigidas
[[Conclusão da análise]]	O sistema deve ser capaz de salvar a análise gerada, mantendo um histórico

It happens inside and outside tables. I think that the brackets could be removed, or even better, create links for the bookmarks generated on the PDFs.

Thanks!

+1
Nice Idea

#2 - 2012-05-21 17:38 - Josh Davidson

I was just coming online to post this as a feature request. Doesn't seem like it should be that difficult to replace them with actual links and would make the resulting documents much more useable.

Up!

Since defect [#10688](#) was fixed, if this one and [#9842](#) were fixed too, this would be very nice!

Still problems, in 1.4.4, tables now exported ok..

but macros includes and toc's are still broken.

It would be great if internal links would be supported as well.

```
[some text], see [[Pagename#Chapter2|Chapter2]] for more information.  
  
[...]  
  
h3. Chapter2
```

I think it is related to issue [#18043](#) I have just added.

#13 - 2014-10-07 13:10 - Toshi MARUYAMA

- *Related to Feature #18043: Links to anchors inside the page should be pagename-independent added*

#14 - 2016-01-14 17:35 - Toshi MARUYAMA

- *Status changed from New to Closed*
- *Resolution set to Fixed*

Brackets was removed by [#13051](#).
